FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", "are likely", "believe", "expect", "estimate", "intend", "likely to", "objective", "plan", "project", "propose", "will", "seek to", "will continue", "will pursue" or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. All statements in this Draft Red Herring Prospectus that are not statements of historical fact constitute 'forward-looking statements'. All statements regarding our expected financial conditions and results of operations, business plans and objectives, strategies and goals and prospects are forward looking statements.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. While we have a diversified geographical presence, our projects have historically been concentrated in the state of West Bengal and any changes affecting the policies, laws and regulations or the political and economic environment in the region may adversely impact our business, financial condition and results of operations.
2. We source a large part of our new orders from our relationships with large engineering and construction companies, both present and past. Any failure to maintain our long-standing relationships with our existing clients or forge similar relationships with new ones would have a material adverse effect on our business operations and profitability
3. Our business is working capital intensive. If we experience insufficient cash flows or are unable to access suitable financing to meet working capital requirements and loan repayment obligations, our business, financial condition and results of operations could be adversely affected.
4. Our Order Book may not be representative of our future results and our actual income may be significantly less than the estimates reflected in our Order Book, which could adversely affect our business, financial condition, results of operations and prospects.
5. We rent certain process-critical equipment and mobilize such equipment at the beginning of each project resulting in increased fixed and operating costs to our Company. In the event we are not able to generate adequate cash flows it may have a material adverse impact on our operation
6. Quoting for a contract involves various management activities such as detailed project study and cost estimations. Inability to accurately estimate the cost may lead to a reduction in the expected rate of return and profitability estimates.
7. Our ongoing projects are exposed to various implementation risks and uncertainties and may be delayed, modified or cancelled for reasons beyond our control, which may adversely affect our business, financial condition and results of operation.
8. We have negative cash flows from operating activities in the past and may experience earnings declines or operating losses or negative cash flows from operating activities in the future.
9. We operate in the construction industry where there are low entry barriers and is highly competitive. Our failure to successfully compete may adversely affect our business, financial condition, results of operations and prospects.
10. We do not own the premises where our Registered Office and Project Offices are located.

For details regarding factors that could cause actual results to differ from expectations, see "Risk Factors", "Our Business" and " Management's Discussion and Analysis of Financial Conditions and Result of Operations " on

pages 25, 114 and 185 respectively of this Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot ensure that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Applicants are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as on the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Promoters, our Directors, the BRLM nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company, the Promoters and the BRLM will ensure that the Bidders in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange for the Equity shares pursuant to the Issue.

The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate, and specific risk associated with our Company. However, there are certain risk factors where the financial impact is not quantifiable and therefore, such financial impact cannot be disclosed in such risk factors. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section.

To obtain a better understanding of our business, you should read this chapter in conjunction with other sections of this Draft Red Herring Prospectus, including the chapters titled “Our Business”, “Management’s Discussion and Analysis of Financial Conditions and Result of Operations”, “Industry Overview” and “Financial Information” on pages 114, 185, 103 and 157, respectively of this Draft Red Herring Prospectus. - Some events may have material impact qualitatively instead of quantitatively;
- Some events may not be materiality individually but may be found material collectively;
- Some events may not be material at present but may not be having material impact in future.

BUSINESS RELATED RISKS

I. INTERNAL RISKS

1. ***While we have a diversified geographical presence, our projects have historically been concentrated in the state of West Bengal and any changes affecting the policies, laws and regulations or the political and economic environment in the region may adversely impact our business, financial condition and results of operations.***

We started our business operations primarily in the state of West Bengal and expanded our operations in the states of Jharkhand, Uttar Pradesh, Rajasthan, Maharashtra, Odisha, Haryana, Bihar, Jammu & Kashmir, Andhra Pradesh and Chhattisgarh. As on July 31, 2024, our ongoing projects amounts to ₹ 53,306.87 lakhs out of which ₹ 44,744.71 lakhs representing 15 of our ongoing projects are concentrated in the state of West Bengal, Jharkhand and Uttar Pradesh. State-wise revenue from operations during

Fiscal 2024, Fiscal 2023 and Fiscal 2022 is detailed as below:

(₹ in lakhs)

Name of State	Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Revenue from Operations	% of Revenue from Operations	Revenue from Operations	% of Revenue from Operations	Revenue from Operations	% of Revenue from Operations
West Bengal	11,670.06	40.19%	7,353.99	55.09%	3,524.76	43.93%
Uttar Pradesh	5,778.97	19.90%	4,797.64	35.94%	2,107.10	26.26%
Odisha	2,903.38	10.00%	-	-	-	-
Maharashtra	2,095.19	7.22%	914.43	6.85%	766.18	9.55%

Bihar	1,275.30	4.39%	4.52	0.03%	92.11	1.15%
Jammu & Kashmir	1,073.80	3.70%	-	-	-	-
Andhra Pradesh	637.97	2.20%	-	-	-	-
Chhattisgarh	-	-	278.61	2.09%	341.57	4.26%
Other States	351.81	1.21%	-	-	-	-
Total	29,033.70	100.00%	13,349.18	100.00%	8,023.88	100.00%

Our Order Book as on July 31, 2024 categorised on the basis of geographical location is as follows:

Name of State	Order Book (₹ in lakhs)	% of Order Book
West Bengal	19,900.22	37.33%
Jharkhand	15,525.19	29.12%
Uttar Pradesh	9,319.30	17.48%
Odisha	3,959.00	7.43%
Haryana	2,463.63	4.62%
Telangana	940.28	1.76%
New Delhi	813.26	1.53%
Punjab	243.76	0.46%
Bihar	76.08	0.14%
Andhra Pradesh	66.15	0.12%
Total	53,306.87	100.00%

While we continuously endeavour to expand our geographical presence, the concentration of our business in above-mentioned states may subject us to various risks, including but not limited to; (i) vulnerability to change of policies, laws and regulations or the political and economic environment of respective states; (ii) interruptions on account of regional instability, adverse climatic condition or force majeure, etc.; (iii) perception by our potential clients that we are a regional construction company, may hamper us from competing or securing orders for large and complex projects at the national level; (iv) regional slowdown in construction activities in those states. While we have and we further strive to diversify across states and reduce our concentration risk, there can be no assurance that the above associated factors will not have an adverse impact on our business. If we are unable to mitigate such concentration risk, we may not be able to develop our business effectively and our business operations, financial condition and results of operation could be adversely affected.

- We source a large part of our new orders from our relationships with large engineering and construction companies, both present and past. Any failure to maintain our long-standing relationships with our existing clients or forge similar relationships with new ones would have a material adverse effect on our business operations and profitability*

We believe that our focus on completing projects in a timely manner along with meeting expected quality requirements of our clients have helped us build strong relationships with our clients and bolster our reputation in the industry in which we operate. In fact, all of the projects that we execute for private

sector clients are sourced through nomination i.e. where clients with whom we have an existing relationship or new clients approach us directly for their proposed projects. Further, we have received additional projects from several of our existing clients despite increased competition in the region within which we operate. If any of our relationships with our existing clients were to be altered or terminated and we are unable to forge similar relationships with new clients in the future, our business, financial condition, results of operations, cash flows and business prospects could be materially and adversely affected.

3. ***Our business is working capital intensive. If we experience insufficient cash flows or are unable to access suitable financing to meet working capital requirements and loan repayment obligations, our business, financial condition and results of operations could be adversely affected.***

Our business requires a significant amount of working capital which is based on certain assumptions, and accordingly, any change in such assumptions will result in changes to our working capital requirements. Working capital is required for mobilization of resources, including construction materials and labour, and for other work on projects before payment is received from our clients. Further, since the contracts we are intend to secure, typically involve a lengthy and complex cost derivation and selection process, it is difficult to predict whether or when a particular contract will be awarded to us. As a result, we may need to incur expenses in anticipation of contract awards, which may not eventually materialize, and finance such expenses by incurring additional indebtedness. Our working capital requirements may increase in the future if we undertake larger or additional projects or projects with a long gestation period, if payment terms do not include advance payments or if contracts have payment schedules that shift payments towards the end of a project or otherwise increase our working capital burden. As of March 31, 2024, March 31, 2023 and March 31, 2022, our working capital gap i.e., difference between total current assets and total current liabilities were ₹ 2,404.91 lakhs, ₹ 593.35 lakhs and ₹ 287.43 lakhs, respectively. We finance our working capital requirements through a variety of sources viz., equity capital (including accumulated reserves), cash credit facilities, working capital demand loans, letter of credit, bank guarantees and other fund based and non-fund based facilities.

Further, we cannot assure you that market conditions will allow us to access working capital facilities on terms which are acceptable to us or of sufficient limits or at all. As of March 31, 2024, our short term borrowings (including borrowings from bank and related parties) amounted to ₹ 3,072.42 lakhs. Our ability to arrange for financing and our cost of borrowing depend on a number of factors, including general economic and market conditions, credit availability from financial institutions, the amount and terms of our existing indebtedness, investor confidence, and the continued success of current projects. In addition, our ability to raise funds is limited by certain restrictions imposed under applicable laws, including foreign exchange regulations. We strive to maintain strong relationships with banks and financial institutions. However, we cannot assure you that our relationships with lenders will not change.

Additionally, certain banks may perceive infrastructure companies as risky borrowers, due to the risks associated with the infrastructure business. As a result, we may find it difficult to establish credit relationships with new lenders or obtain additional facilities from our existing lenders or may not be able to access credit on terms which are comparable to those which are available to companies in other industries.

4. ***Our Order Book may not be representative of our future results and our actual income may be significantly less than the estimates reflected in our Order Book, which could adversely affect our business, financial condition, results of operations and prospects.***

Our Order Book represents the aggregate value of contractual commitments that have been secured but remain to be fulfilled by us. Further, our Order Book as of a particular date is calculated on the basis of the aggregate contract value of our ongoing projects as of such date reduced by the value of work already executed by us until such date. The manner in which revenues are derived to calculate and present our Order Book is not similar to the manner in which our revenue from operations is accounted. For instance, we do not take into account any escalation for calculating the Order Book whereas escalations are accounted for under our revenue from operations. The manner in which we calculate and present our Order Book information may vary from the manner in which such information is calculated and presented by other companies, including our competitors. The Order Book information included in this Draft Red

Herring Prospectus is not audited and does not necessarily indicate our future earnings. Our Order Book should not be considered in isolation or as a substitute for GAAP performance measures. As of July 31, 2024, we had an Order Book of ₹ 53,306.87 lakhs. For further details on our Order Book, see “*Our Business – Order Book*” on page 120 of this Draft Red Herring Prospectus. We may not be able to achieve our expected margins or may even suffer losses on one or more of these contracts or we may not be able to realise the revenues which we anticipated in such projects.

Due to the possibility of cancellations, delays or changes in scope and schedule of projects, we cannot predict with certainty when, if or to what extent, a project forming part of our Order Book will be performed and this could reduce the income and profits we ultimately earn from our contracts. In addition, even where a project is completed on schedule, it is possible that our clients may default or otherwise fail to pay amounts owed. Any delay, reduction in scope, cancellation, execution difficulties, delays in payment or payment defaults, or disputes with clients in respect of any of the foregoing, could adversely affect our business, financial condition, results of operations and cash flows.

5. ***We rent certain process-critical equipment and mobilize such equipment at the beginning of each project resulting in increased fixed and operating costs to our Company. In the event we are not able to generate adequate cash flows it may have a material adverse impact on our operation.***

We rent certain process-critical construction equipment and mobilize such equipment at the beginning of each project, resulting in increased fixed and operating costs to our Company. As on July 31, 2024, we also own and maintain certain construction related plant and machineries comprising of batching plant, hydra, dumper, drilling machines, centering and shuttering material and allied construction equipments, among others. As on March 31, 2024, the aggregate gross block value of our Company’s property, plant and equipment was ₹ 1,436.73 lakhs of which gross block of plant and machinery is ₹ 1,314.39 lakhs.

We rent the equipment on the basis of our requirement from local suppliers. Further, on an average, we incur significant cost in mobilizing equipment at our project sites. Accordingly, the cost of maintaining and mobilizing such equipment in proper working condition constitutes a significant portion of our operating expenses. In the event, we are unable to generate or maintain adequate revenues by successfully quoting for projects or recover payments from our clients in a timely manner or at all, it could have a material adverse effect on our financial condition and operations.

6. ***Quoting for a contract involves various management activities such as detailed project study and cost estimations. Inability to accurately estimate the cost may lead to a reduction in the expected rate of return and profitability estimates.***

Prior to providing a quotation or bid for a particular project, we undertake various activities such as discussion on the scope of work, geographic location of the project, the degree of complexity in executing the project in such location, our current and projected workload, the likelihood of additional work, cost of materials / consumables, availability of labour the contract value and profitability estimates and our competitive advantage relative to other likely vendors. For details, see “*Our Business – Business Model*” on page 119 of this Draft Red Herring Prospectus.

Accordingly, all of the quoted amounts in our submission to client are based on estimates of the contract value, the fluctuation of which, either marginally or substantially, may impact our margins adversely. Further, we may incorrectly or inadequately estimate the contract value leading to lower quotation amount affecting our profitability in case the project is awarded to us. Our actual expense in executing a project may vary substantially from the assumptions underlying our quotation for various reasons, including, unanticipated increases in the cost of construction materials, fuel, labour or other inputs, unforeseen construction conditions, including the inability of the client to obtain requisite environmental and other approvals resulting in delays and increased costs, delays caused by local weather conditions and other suppliers’ failures to perform. Our ability to pass on increases in the purchase price of raw materials and other inputs may be limited in the case of contracts with limited or no price escalation provisions and we cannot assure you that these variations in cost will not lead to financial losses to us. Excess estimation of costs may lead to higher quoted amount by us owing to which, we may not be awarded a contract which may substantially impact our results of operations and financials.

7. ***Our ongoing projects are exposed to various implementation risks and uncertainties and may be delayed, modified or cancelled for reasons beyond our control, which may adversely affect our business, financial condition and results of operation.***

As on July 31, 2024, our Order Book consists of 29 ongoing projects amounting to ₹ 53,306.87 lakhs. For information in respect of our ongoing projects, see “*Our Business – Order Book*” on page 120.

Execution of our projects may be delayed for the reasons beyond the control of our Company such as, delay due to delay in clients’ approval on variation, design & drawings, due to extensive revision by clients, modification in scope of work, etc. In the Fiscal 2024, Fiscal 2023 and Fiscal 2022, we have not experienced any significant delays in the completion of our projects which resulted into penal consequences from our clients.

The execution of our projects involves various implementation risks. Certain implementation risks and uncertainties that we may experience, in the conduct of our business include; (a) additional costs due to project delays; (b) clients seeking liquidated damages on account of failure to achieve the project timelines; (c) termination of contracts or rejection in extension of project timelines; (d) inability to avail finance required for the execution of the project at affordable costs; (e) unforeseen issues arising out of engineering designs for the projects; (f) risk of equipment failure or industrial accidents that may cause injury and loss of life, and severe damage to and destruction of property and equipment; (g) availability and price increase in relation to the materials and skilled manpower required for the execution of the project; (h) inability of the relevant authorities to fulfil their obligations, in accordance with the relevant contracts, resulting in unanticipated delays; (i) disputes with workers, force majeure events and unanticipated costs due to any amendments in plans and specifications, among others. Further, we may also be subject to various risks associated with regulatory approvals and financial requirements for the execution of our projects, which may render the projects unprofitable.

While our Company avails ‘contractor all risk’ insurance policies for construction projects awarded to us which provides coverage for the entire contract value, and secures risks arising from certain events such as trigger of escalation clause, third party liabilities, etc. Further, our Company has also obtained insurance for its machineries and vehicles and have obtained professional indemnity insurance for one of our contracts as per contractual obligations. We cannot assure you that our insurance policies will cover any and all cost escalation or liabilities in connection with the development of such projects. For details, see “*Risk Factor - Our insurance coverage may not be sufficient or may not adequately protect us against all or any hazards, which may adversely affect our business, results of operations and financial condition*” on page 38.

8. ***We have negative cash flows from operating activities in the past and may experience earnings declines or operating losses or negative cash flows from operating activities in the future.***

We have sustained negative cash flow used in operating activities in past, attributable to increase in trades receivables, payment to trade payables, payment of mobilisation advances received, increase short term borrowings, etc. The following table sets forth certain information relating to our cash flows for the Fiscals 2024, 2023 and 2022:

	<i>(₹ in lakhs)</i>		
Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Net cash generated from/ (used in) operating activities	(484.12)	223.74	(1020.34)
Net cash generated from/ (used in) investing activities	(2,275.28)	(702.69)	674.68
Net cash generated from/ (used in) financing activities	3312.29	448.98	316.03
Net increase / (decrease) in cash and cash equivalents	552.88	(29.97)	(29.64)

For further details see, “*Management’s Discussion and Analysis of Financial Condition and Result of Operations - Cash Flows*” on page 192 of this Draft Red Herring Prospectus.

There can be no assurances that cash flows will be positive in the future thereby creating an adverse impact on our ability to meet working capital expenditure, repay loans without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

Further, we had faced a negative free cash flow to equity in past one out of three years. The following table sets forth certain information relating to our free cash flow to equity for the Fiscals 2024, 2023 and 2022.

Particulars	<i>(₹ in lakhs)</i>		
	Fiscal 2024	Fiscal 2023	Fiscal 2022
Net cash generated from/ (used in) operating activities	(484.12)	223.74	(1020.34)
Less: Capital expenditure	(520.39)	(463.19)	(304.16)
Add: Net borrowings	2,631.87	351.19	(193.24)
Net increase / (decrease) in free cash flow to equity	1627.35	111.74	(1517.74)

There can be no assurances that free cash flow to equity will be positive in the future thereby creating an adverse impact on our ability to meet the requirement for being available free cash flow for distribution to Equity Shareholders without raising new equity from existing / external resources. If we are not able to generate sufficient free cash flow to equity, it may adversely affect our ability to distribute free cash flow to Equity Shareholders.

9. *We operate in the construction industry where there are low entry barriers and is highly competitive. Our failure to successfully compete may adversely affect our business, financial condition, results of operations and prospects.*

We are an engineering, procurement and construction (“EPC”) company. The construction sector is characterized by low barriers to entry, wherein large or small enterprises who may be operating in other sectors can build up pre-qualifications, independently or through joint ventures, and compete with us for projects in this sector. The presence of numerous competitors, including both established and newly entities, may result in heightened competition for projects, contracts, and clients. We compete against various domestic engineering, construction and infrastructure companies. Our competition varies depending on the size, nature and complexity of the project and on the geographical region in which the project is to be executed. For further information concerning our competitors in specific industry and project segments, see “Industry Overview” on page 103 of this Draft Red Herring Prospectus.

We may be unable to compete with larger infrastructure companies for high-value contracts, as many of them may have greater financial resources, economies of scale and operating efficiencies. If we are unable to compete for and win projects, whether large or small, or compete with larger competitors, we may be unable to sustain or increase, our volume of order intake and our results of operations may be materially adversely affected. While many factors affect our ability to win the projects that we quote for, pricing is a key deciding factor in most of the project awards. While we have, in the past, been awarded a number of contracts, we cannot assure you that we will continue to be awarded such contracts. Further, in the event that our competitors follow a policy of severely pricing in the projects that we compete for, our revenues may be adversely affected. Such competitive factors may result in reduced revenues, reduced margins and loss of market share. Failure to compete successfully against current or future competitors could harm our business, operating cash flows and financial condition

10. *We do not own the premises where our Registered Office and Project Offices are located.*

We do not own our registered office and project offices. We have taken registered office on a 11 months rent with effect from April 15, 2024. We have also taken our project offices located at various locations on lease, and we cannot assure you that the lease arrangement for registered office and project offices would not be terminated. Any such termination could result in vacation of such offices, and we might be forced to arrange for alternative arrangements at less favourable terms to us. If we are required to relocate our business operations, we may suffer a disruption in our operations.

Additionally, our Company also set-up site offices on temporary basis at project sites for project management, storage of raw materials and placement of equipment as required for the effective execution of work. We cannot assure that we would be able to set-up such temporary site offices without incurring

substantial cost. On completion of projects, we are required to dismantle and relocate our site offices to new project site location, and we may have to pay increased charges for new property and obtain requisite shops and establishment registrations, which could have an adverse effect on our business, financial condition, cash flows and results of operations. For details in relation to our premises, see “*Our Business – Properties*” on page 121 of this Draft Red Herring Prospectus.

11. *We are dependent upon the experience and skill of our Promoters, management team and key managerial personnel and senior management personnel. Loss of our Promoters or our inability to attract or retain such qualified personnel, this could adversely affect our business, results of operations and financial condition.*

We are led by the Chairman, Managing Director and CEO of our Company, Vibhoar Agrawal, aged 38 years who also is one of our Promoters, possessing an extensive experience of above 8 years in the construction industry and has been intimately involved in our business since incorporation. Our Promoters remains actively involved in our operations and continues to bring his vision, business acumen and leadership to our Company, which has been instrumental in sustaining our business operations and growth. Our Promoters, Vibhoar Agrawal has strong operational knowledge, good relationships with our clients and a successful track record of executing construction projects. We also have dedicated management team with a strong understanding of the industry that enables us to effectively identify and take advantage of market opportunities. We believe that the experience of our senior management team has significantly contributed to our success and growth. While we have not witnessed any major attrition in our key management and senior management team, we cannot assure you their continuous association with our Company in future.

If we are unable to hire additional qualified key personnel or retain them, our ability to expand our business may be impacted. As we intend to continue to expand our operations and develop new projects, we will be required to continue to attract and retain experienced key personnel. We may also be required to increase our levels of key personnel compensation more rapidly than in the past to remain competitive in attracting suitable key personnel. There can be no assurance that our competitors will not offer better compensation incentives and other perquisites to such skilled personnel.

12. *Delays in the completion of our projects or cost overruns, could have an adverse effect on our cash flows, business, results of operations and financial condition.*

Our projects are required to be completed as per the timelines specified in the agreement, or by the end of the extension period, if any, granted by our clients. We furnish bank guarantee and performance security for completion of the construction of our projects within a specified timeframe. Subject to certain customary exceptions such as (i) occurrence and continuance of force majeure events that are not within the control of the concessionaire, or (ii) delays that are caused due to reasons solely attributable to clients, failure to adhere to contractually agreed timelines or extended timelines could require us to pay liquidated damages as may be stipulated in the project contract or lead to encashment and appropriation of the bank guarantee or performance security. The client may also be entitled to terminate the project contract in the event of delay in completion of the work if the delay is not on account of any of the agreed exceptions and deny payment on account of escalation. In such an event, we may only receive partial payments under such agreements and such payments may be less than our estimated cash flows from such projects. Further, we may not be able to obtain extensions for projects on which we face delays or time overruns could have an adverse effect on our cash flows, business, results of operations and financial condition.

13. *Our Company has been recently incorporated thus we have limited operating history as a Company which may make it difficult for investors to evaluate our historical performance or future prospects.*

Our Company was originally formed as a partnership firm under the name and style of “Ganesh International” on May 15, 2017. Thereafter, our firm was converted into a private company “Ganesh Infraworld Private Limited” on February 13, 2024, pursuant to the provisions of Chapter XXI of the Companies Act and a fresh Certificate of Incorporation dated February 13, 2024. Subsequently, our Company was converted into Public Limited Company and name of the Company was changed from “Ganesh Infraworld Private Limited” to “Ganesh Infraworld Limited” vide a fresh Certificate of Incorporation dated June 01, 2024. For further details, please see “*History and Certain Corporate*

Matters” on page 132 of this Draft Red Herring Prospectus.

Our Company, post conversion from partnership firm, has limited operating history from which one can evaluate our business, future prospects and viability. The future revenues and profitability of our Company are difficult to estimate and could fluctuate significantly and as a result the price of the Equity Shares our Company may remain volatile. Further the business prospects of our Company must be considered in light of the risks and uncertainties in respect of overall construction and infrastructure industry. Although the partnership firm has retained the growth path in past years, and our Company will continue to undertake all possible steps towards the growth path, but there is no assurance that this growth will be met successfully in future. In case we are unable to meet the desired growth in revenues and profitability, the results of operations and financial condition of our Company will be adversely affected.

14. *We have been recently incorporated as company and any non-compliance with the provisions of Companies Act, 2013 may attract penalties against our Company which could impact our financial and operational performance and reputation.*

Our Company was originally formed as a partnership firm under the name and style of “Ganesh International” on May 15, 2017. Thereafter, our firm was converted into a private company “Ganesh Infraworld Private Limited” on February 13, 2024, pursuant to the provisions of Chapter XXI of the Companies Act and a fresh Certificate of Incorporation dated February 13, 2024. Subsequently, our Company was converted into Public Limited Company and name of the Company was changed from “Ganesh Infraworld Private Limited” to “Ganesh Infraworld Limited” vide a fresh Certificate of Incorporation dated June 01, 2024. For further details, please see “*History and Certain Corporate Matters*” on page 132 of this Draft Red Herring Prospectus.

The provisions of the Companies Act were not applicable to us earlier. However, consequent to the aforesaid incorporation, our Company is subject to compliance of various provisions of the Companies Act. Further, since our Company got recently converted from partnership, our Company has filed the Statutory Returns such as GST, TDS, ESI and PF with respective department in the name of erstwhile partnership till the receipt of registrations of the name of newly formed company from such statutory departments.

Though our Company will endeavour to take all possible steps to comply with the provisions of the Companies Act and other application regulations, but in case of our inability to do so or in case of any delay, we may be subject to penal action from the appropriate authorities which may have an adverse effect on our financial and operational performance and reputation

15. *We may be exposed to liabilities arising from defects during construction, which may adversely affect our business, financial condition, results of operations and prospects.*

Actual or claimed defects in construction quality during the construction period or defect liability period of our projects, could give rise to claims, liabilities, costs and expenses. Further, we may not be able to recover such increased costs from our clients in part, or at all, for any defects observed in the projects or damage caused to the project on account of our fault. We may further face delays in the estimated project completion schedule in respect of such projects on account of additional works required to be undertaken towards rectifying such construction faults, and we may have to appoint additional workforce and resources in order to complete the project within the pre-determined time period, which may result in increased expenditure for our Company and we may not be able to pass on to our clients. In the event of any material fault which adversely affect the quality of our project could impact our relationship with our clients and could lead to termination of our business relationships with our clients and therefore could adversely affect our business operations and result of operations. We seek protection by our practice of covering risks through insurance policies such as contractors all risk policy. However, there can be no assurance that any cost escalation or additional liabilities in connection with the development of such projects would be fully offset by the insurance policies that we maintain. In addition, if there is a client dispute regarding our performance, the clients may delay or withhold payment to us. If we were ultimately unable to collect these payments, our profits would be reduced. While there have not been any instances of defect in our construction in the past, we cannot assure that such event may not occur in future.

While any of the aforementioned events which could materially impact our projects or business operations, have not occurred in the past, we cannot assure you that any claims in respect of the quality of our construction will not arise in the future and would not affect our business or financial condition.

16. ***We face certain risks relating to our reliance on sub-contractors and third parties for supply of raw materials, renting of certain construction equipments and for providing certain services in the construction of our projects that may adversely affect our reputation, business and financial condition. Failure by our labour contractors and third parties to adhere to regulatory requirements may subject us to penalties.***

The key raw materials required for our business are cement, sand and ready-mix concrete, while construction equipment generally we take on rent are excavator, dumper, tower crane, builder hoist and scaffolding machines. We are dependent on third party suppliers for our various materials and rent of equipment. Discontinuation of production/supply by these suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality or quantity and absence or lack of alternatives in market could hamper our schedules and therefore affect our business and results of operations. This dependence may also adversely affect the availability of key materials at reasonable prices thus affecting our margins and may have an adverse effect on our business, cash flows, results of operations and financial condition. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in shortages or delays in their supply. There can be no assurance that we will not be subject to penalties levied by our clients in the future due to delays, which may be on account of factors beyond our control. We cannot assure you that a particular supplier will continue to supply the required components or raw materials to us in the future. Any change in the supplying pattern of our raw materials can adversely affect our business and cash flows.

17. ***We derive a significant portion of our revenues from a limited number of clients. The loss of any significant clients may have an adverse effect on our business, financial condition, results of operations, and prospects***

We derive a significant portion of our revenues from a limited number of clients. For the Financial year ended March 31, 2024, March 31, 2023, and March 31, 2022, our revenue from top five (5) and top ten (10) clients are as follows:

Sr No.	Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
		Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations	Amount (₹ in lakhs)	% of our revenue from operations
1.	Revenue from top five (5) clients	16,668.33	57.41%	6,282.34	47.06%	4,129.56	51.47%
2.	Revenue from top ten (10) clients	18,854.59	64.94%	6,488.79	48.61%	4,561.03	56.84%

Note : We are unable to disclose the names of individual clients since this information is commercially sensitive to our business

For further details, see “Our Business - Order Book” on page 120 of this Draft Red Herring Prospectus. Our Company undertakes sub-contracting assignments of infrastructure construction projects from third party major infrastructure and construction entities.

We might continue to derive a material portion of our revenues from our key clients. While the composition and mix of our top 5 and top 10 clients keeps changing from year to year, if any or all of our key clients cease doing business or substantially reduce their dealings with us, our revenues could decline, which may have a material adverse effect on our business, results of operations, cash flows and financial condition.

Significant revenue from a limited number of clients increases the potential volatility of our results and

exposure to individual contract risks. We may be required to accept onerous contractual terms in our contracts for projects awarded to us by such clients. While our Company has not experienced such instances in the past, in the event that our Company is unable to comply with its obligations in any contract with such top ten (10) clients, it would result in a substantial reduction in the number of contracts awarded by such client in future resulting in an impact on the overall business and revenue generated by the Company from such client. Further, such concentration of our business on selected projects or clients may have an adverse effect on our results of operations. We cannot assure you that we can maintain the same levels of business from our ten (10) clients. Furthermore, events such as adverse market conditions, any restructuring or changes in the regulatory regime, could adversely affect our clients and consequently impact our business.

Our experience in the infrastructure construction sector and ability to offer timely and efficient completion of work as per the agreed upon terms has enabled us to maintain our continued eligibility and qualification for quoting for projects. However, due to certain unforeseen circumstances such as, failure to obtain licenses and approvals or rights over a land, public interest litigations filed by environmentalists against the proposed projects, our clients may either terminate our contracts or may default and fail to pay amounts owed, which may adversely affect our Order Book and in turn, can impact our business and financial condition. Further, in the event we are unable to complete our projects within the time period prescribed under our contracts or within the extended period of contract, or the quality of our work deteriorates, then our relationship with our clients may get severed and we may not get further orders from our current clients which could adversely affect our business.

- 18. *We are dependent on limited number of suppliers and contractors for supply of key raw materials and manpower. We have not made any long term supply arrangement with our suppliers. In an eventuality where our suppliers and contractors are unable to deliver us the required resources in a time-bound manner it may have a material adverse effect on our business operations and profitability.***

Our Company is dependent on external suppliers and contractors for supply of raw materials; however, we have not entered into any long term supply agreement for the same. For the financial year ended March 31, 2024, March 31, 2023 and March 31, 2022, our purchases from top five (5) and top ten (10) suppliers are as follows:

Sr No	Particulars	FY 2023-24		FY 2022-23		FY 2021-22	
		Amount (₹ in lakhs)	% of our construction and other direct expenses	Amount (₹ in lakhs)	% of our construction and other direct expenses	Amount (₹ in lakhs)	% of our construction and other direct expenses
1.	Purchase from top five (5) suppliers	4,053.79	17.46%	3,180.65	26.22%	2,301.32	30.95%
2.	Purchase from top ten (10) suppliers	6,849.03	26.33%	4,400.38	36.28%	3,657.93	49.20%

Note: We are unable to disclose the names of individual suppliers since this information is commercially sensitive to our business

For further details, see “Our Business” on page 114 of this Draft Red Herring Prospectus.

There can be no assurance that strong demand, lack to required resources or other problems experienced by our supplier will not result in occasional shortages or delays in their supply of raw materials and manpower. If we experience a significant or prolonged shortage of resources from any of our supplier and we cannot arrangement the required resources from other sources, we would be unable to meet our construction schedules in a timely manner, which would adversely affect our revenue, margins and clients relations. In the absence of such supply agreements, we cannot assure that a particular supplier will continue to supply raw materials and manpower to us in the future.

While we may find additional suppliers to supply these raw materials, any failure of our suppliers to deliver these raw materials in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our production processes and our ability to deliver orders on time and at the desired level of quality. As a result, we may lose clients which could have a material adverse effect on our business, financial condition and results of operations. Further, there can be no assurance that we will be able to effectively manage relationships with our existing or new suppliers or that we will be able to enter into arrangements with new suppliers at attractive terms or at all. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

19. *We have experienced rapid growth in the past few years and if we are unable to sustain or manage our growth, our cash flows, results of operations and financial condition may be adversely affected.*

Owing to our relatively limited operating history and lower base for comparison of financial metrics, we have experienced significant growth in the past five years. Our revenue from operation has increased from ₹8,023.88 lakhs in financial year 2022 to ₹ 29,033.71 lakhs in financial year 2024, representing a CAGR of 90.22%. Our business operations have also grown significantly over the years. As on July 31, 2024, our Order Book was ₹ 53,306.87 lakhs. As our operations becomes more mature, we may not be able to sustain our rates of growth, due to a variety of reasons including a higher base for comparison of financial metrics, increased price competition for construction services, non-availability of raw materials, lack of management availability or a general slowdown in the economy. A failure to sustain our growth may have an adverse effect on our business, our cash flows, results of operations and financial condition.

Further, as we scale-up our operations, we may not be able to execute our operations efficiently, which may result in delays, increased costs and lower quality. We cannot assure you that our future performance or growth strategy will be successful. Our failure to manage our growth effectively may have an adverse effect on our prospects, results of operations and financial condition.

20. *We may be unable to adequately protect our intellectual property and may be subject to risks of infringement Claims*

Our Company currently uses  as his trademark which is registered by under the name of our partnership firm M/s Ganesh International under the Trademarks Act, 1999. There can be no assurance that we will be able to successfully obtain or renew our registration in a timely manner or at all, which may affect our ability to use the brand in the future. We may not be able to prevent infringement of our trademarks and a passing off action may not provide sufficient protection until the trademark is passed on to the name of our Company. The measures we take to protect our intellectual property include relying on Indian laws and initiating legal proceedings, which may not be adequate to prevent unauthorised use of our intellectual property by third parties. We may also incur significant costs in connection with legal actions relating to such rights. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations and financial condition. Our failure to detect counterfeiting or imitation of our own brand products and trademarks and to mitigate the adverse impact from such counterfeiting and imitation could result in a decrease in our sales volume or market share.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management's attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Any of the foregoing could have an adverse effect on our business, results of operations and financial condition.

21. *Our business is subject to seasonal variation and we may not be able to accurately forecast our project schedule which could have an adverse effect on our cash flows, business, results of operations and financial condition.*

Our construction work is subject to seasonal variations. For example, we typically experience, slower work progress in monsoon season as compared to rest of the year. Further, there is general slowdown and shortage in contract labourers during festival season, generally in month of September to November. Due to these factors, comparisons of revenue and operating results between the same periods within a single year, or between different periods in different fiscals, are not necessarily meaningful and should not be relied on as indicators of our performance. We account for this seasonality in work progress and cash flow projections. However, we cannot assure you, that in future, we will always be able to accurately forecast our project schedule. If our estimates materially differ from actual work progress, we may experience either delay or halt in project completion, which in turn could adversely affect our business, results of operations, financial condition and prospects.

22. *We are required to furnish bank guarantees as part of our business. Our inability to arrange such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition.*

As part of our business and as is customary, we are required to provide financial and performance bank guarantees in favour of our clients under the respective contracts for our projects. For our projects, we typically issue bank guarantees to our clients with whom the contractual arrangement has been entered into.

These guarantees are typically required to be furnished within an agreed time of the signing of a contract and remain valid up to one year after the scheduled completion date prescribed in that contract. In addition, letters of credit are often required to satisfy payment obligations to our suppliers. We may not be in a position to continue obtaining new financial and performance bank guarantees in sufficient quantities to match our business requirements. If we are unable to provide sufficient collateral to secure the financial bank guarantees, performance bank guarantees or letters of credit, our ability to enter into new contracts or obtain adequate supplies could be limited and could have a material adverse effect on our business, results of operations and financial condition. Providing security to obtain letters of credit, financial and performance bank guarantees also increases our working capital requirements. As of March 31, 2024, March 31, 2023, and March 31, 2022, we had issued bank guarantees and security deposits amounting to ₹ 560.66 lakhs, ₹ 378.57 lakhs, and ₹ 41.80 lakhs, respectively, towards securing our financial / performance obligations under our ongoing projects. We cannot assure you that we will be able to fulfil any or all of our obligations under the contracts entered into by us in relation to our ongoing projects due to unforeseen circumstances which may result in a default under our contracts resulting in invocation of the bank guarantees issued by us. If any or all the bank guarantees are invoked, it may result in a material adverse effect on our business and financial condition.

23. *We may not be able to collect receivables due from our clients, in a timely manner, or at all, which may adversely affect our business, financial condition, results of operations and cash flows.*

There may be delays in the collection of receivables, from our clients. While we do not have any receivables which are outstanding for more than 6 months, we cannot assure you that we will be able to collect our third-party receivables in time or at all which may have an adverse effect on our cash flows, business, results of operations and financial condition. For further details, see “*Restated Financial Information*” on page 157 of this Draft Red Herring Prospectus.

In addition, we may, at times, be required to claim additional payments from our clients for additional work and costs incurred in excess of the contract price or amounts not included in the contract price. However, our clients may interpret such additional work and costs restrictively and dispute our claims, resulting in lengthy arbitration, litigation or other dispute resolution proceedings, which we cannot assure that we can recover adequately. Further, we may incur substantial costs in collecting against our debtors and such costs may not be recovered in full or at all from the debtors. We require significant working capital requirements in our business operations and such delayed collection of receivables or inadequate recovery on our claims could materially and adversely affect our business, cash flows, financial condition

and results of operations.

24. *Our business is manpower intensive and any unavailability of our employees or shortage of contract labour may have an adverse impact on our cash flows and results of operations.*

We are dependent on manual labour for the operation of our projects. We employ contractual labour, which provides us with readily available labours as per the requirements. We hire contract labourer depending on various factors like the location, size, duration, etc. and have several contractors providing skilled and unskilled labour at competitive prices. For further details, see “*Our Business – Human Resources*” on page 123 of this Draft Red Herring Prospectus. The expenses incurred by our Company towards our employees (comprising salaries and wages, staff welfare expenses and contribution to the employees’ provident fund and other funds) for the Fiscals 2024, 2023 and 2022 was ₹ 157.21 lakhs, ₹ 103.8 lakhs and ₹ 82.46 lakhs.

The number of contract labourers employed by us varies from time to time based on the nature and extent of work we are involved in. Our dependence on such contract labour may result in insignificant risks for our operations, relating to the availability and skill of such contract labourers, as well as contingencies affecting availability of such contract labour during peak periods in labour intensive sectors such as ours. There can be no assurance that we will have adequate access to skilled workmen at reasonable rates and in the areas in which we execute our projects. As a result, we may be required to incur additional costs to ensure timely execution of our projects.

We maintain a workforce based upon our current and anticipated workloads. If our Company does not receive future contract or if these contracts are delayed, it could incur significant costs in the interim. Our estimate of the future performance depends on, among other things, whether and when we will be awarded new contracts. While our estimates are based upon best judgment, these estimates can be unreliable and may frequently change based upon newly available information. In the case of large-scale projects where timing is often uncertain, it is particularly difficult to predict whether or when we will be awarded the contract. The uncertainty of the contract being awarded and its timing can present difficulties in matching workforce size with contract needs. If a contract, which we expect will be awarded, is delayed or not received, our Company could incur costs due to maintaining under-utilized staff and facilities, which could have a material adverse effect on our profitability, financial condition and results of operations and financial condition.

25. *Our funding requirements and the deployment of Net Proceeds are based on management estimates and have not been independently appraised. Any variation in the utilisation of Net Proceeds of the Fresh Issue as disclosed in this Draft Red Herring Prospectus shall be subject to compliance requirements, including prior shareholders’ approval.*

We propose to utilize the Net Proceeds as stated under “*Objects of the Issue*” on page 85 of this Draft Red Herring Prospectus. As per section 27 of the Companies Act, the objects of utilization of the Net Proceeds from the Issue as disclosed in this Draft Red Herring Prospectus can only be varied after obtaining the shareholders’ approval vide a special resolution. In the event, the Company wishes to vary the objects for which the Net Proceeds from the Issue are required to be varied, our Company may not be able to obtain the Shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders’ approval may adversely affect our business or operations. Therefore, we may not be able to undertake variation of Objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our ability to respond to any change in our business or financial condition, and thus, adversely affecting our business and results of operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the Objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter our Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the

price prescribed by SEBI. In light of these factors, we may not be able to undertake variation of Objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in the Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by redeploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

26. *Our operations may be adversely affected in case of industrial accidents, physical hazards and similar risks at our construction sites, which could expose us to material liabilities, loss in revenues and increased expenses.*

While construction companies, including us, conduct various scientific and site studies during the course of quoting for projects, there are always anticipated or unforeseen risks that may arise due to weather conditions, geological conditions, specification changes and other reasons. Additionally, our operations are subject to hazards inherent in providing engineering and construction services, such as risk of equipment failure, work accidents, fire or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage. Use of heavy machineries, handling of sharp parts of machinery by labourers during construction activities etc. may result in accidents, causing injury to our labourers, employees or other persons on the site and may prove fatal. Our Company has not faced any such instances of material accidents, causing grave injury to any employee on the construction sites in past three Fiscal. Further, our insurance policies of covering risks may not always be effective and thus any such event may have a material adverse effect on our reputation, business, financial condition and results of operation.

27. *Our insurance coverage may not be sufficient or may not adequately protect us against all or any hazards, which may adversely affect our business, results of operations and financial condition.*

We maintain insurance policies to cover risks related to our projects in accordance with the terms of our contracts/ projects and industry practices. Our insurance policies include policies such contractors all risk policy, professional indemnity insurance policy and workmen's compensation policy. Our policies are subject to standard limitations. Further, our insurance policies are subject to annual review, and we cannot assure that we will be able to renew these policies on similar or otherwise acceptable terms, or at all. We cannot assure that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all material losses. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, that is not covered by insurance or exceeds our insurance coverage, the loss would have to be borne by us and in such cases our cash flows and results of operations and subsequently, our financial performance could be adversely affected

While we believe that insurance coverage will be available in the future, we cannot assure you that such coverage will be available at costs and terms acceptable to us or that such coverage will be adequate with respect to future claims that may arise. Further, our inability to obtain requisite insurances may amount to non-compliance with the terms of the project contract and consequently entitle our clients to undertake adverse action against us.

28. *There are certain instances of delays in payment of statutory dues. Any delay in payment of statutory dues or non-payment of statutory dues in dispute may attract financial penalties from the respective government authorities, which may have an adverse impact on our financial condition and cash flows.*

There have been certain instances on delay in payment of statutory dues in last three fiscals, which inter-alia include, income-tax, goods and services tax, provident fund, employees' state insurance, professional tax and other statutory dues which as on the date of this Draft Red Herring Prospectus has been deposited with relevant authorities.

29. ***We have availed credit facilities from our related parties that are repayable on demand. Any unexpected demand for repayment of such facilities by the lenders may adversely affect our business, financial condition, cash flows and results of operations.***

Some of our borrowings are repayable on demand in accordance with their respective terms of such facility agreement. For further details, see “*Financial Indebtedness*” on page 197 this Draft Red Herring Prospectus. Any failure to service such indebtedness, comply with a requirement to obtain lender consent or otherwise perform such obligations under such financing agreements (including unsecured borrowings) may lead to such borrowing being repayable on demand, termination of one or more of our credit facilities or penalties and acceleration of amounts due under such credit facilities, which may adversely affect our business, financial condition, results of operations and prospects. While there have been no instances in the past of any loans or facilities being recalled by lenders, nor a failure to comply with covenants in financing agreements, we cannot guarantee that we will be able to service our loans or comply with such covenants or other covenants in the future.

30. ***Our actual cost incurred in completing a project may vary substantially from the assumptions underlying our quotation. We may be unable to recover all or some of the additional expenses incurred, which could adversely affect our financial condition, results of operation and cash flows.***

Under our contracts with our clients, we are typically entitled to receive an agreed amount, subject to variations in our scope of work. This amount is based on certain estimates underlying our quotation

including cost of construction materials, fuel, labour, sub-contracting costs or other inputs, and construction conditions. However, our actual expenses in executing a project may vary based on a change in any such assumptions. The cost of construction materials, fuel, labour and equipment maintenance constitutes a significant part of our operating expenses. We are vulnerable to the risk of rising and fluctuating fuel, labour, steel and cement prices, which are determined by demand and supply conditions in the global and Indian markets as well as government policies. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance, results of operations, and cash flows.

31. *We have not commissioned an industry report for the disclosures made in the section titled 'Industry Overview' and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.*

We have not commissioned an industry report for the disclosures made in the chapter titled "Industry Overview" on page 103 of this Draft Red Herring Prospectus and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have been obtained. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Red Herring Prospectus. Further, the industry data mentioned in this Draft Red Herring Prospectus or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context.

32. *We may be subject to liability claims or claims for damages or termination of contracts with our clients for failure to meet project milestones or defective work, which may adversely impact our profitability, cash flows, results of operations and reputation*

We are a construction company offering a range of construction and allied services across industrial civil projects, mechanical projects, residential & commercial buildings, road construction, railway infrastructure projects, power projects and water distribution projects in India. Our contracts contain provisions that subject us to defect liabilities for delays in completion of project milestones attributable to us, which are often specified as a fixed percentage of the contract value, subject to certain customary exceptions such as (i) occurrence and continuance of force majeure events, or (ii) delays that are caused due to reasons solely attributable to the client. Further, our clients are entitled to deduct the amounts of damages from the payments due to us. During the construction period as well as the defect notification period after the completion of construction, we are usually required to remedy construction defects at our own risk and costs. We are usually responsible for making good the defects during the defect notification period, which can be for a period upto five years after completion of work, as per the agreement entered with the client. Additionally, under the agreements entered into by us, we are usually required to indemnify our clients and its officers, employees and representatives against all actions, proceedings, claims, liabilities, damages, losses and expenses due to failure on our part to perform our obligations under the contracts. Further, we are also required to provide performance guarantees for some of our projects as per the terms of the contracts

In addition to monetary penalties, any such failure to meet project schedules or defective work may subject us to adverse reputational impact. The client may also be entitled to terminate the agreement in the event of delay in completion of the work if the delay is not on account of any of the agreed exceptions. With respect to some of our projects, in the event of termination for any of the aforesaid reasons, we may only receive partial payments under such agreements and such payments may be less than our estimated cash flows from such projects.

In addition to the risk of termination by the client, delays in completion of construction may result in cost overruns, lower or no returns on capital and reduced revenue for the client thus impacting the project's performance, which in turn may adversely impact our reputation, cash flows, results of operations and profitability. While there have been instances of delays to our projects on account of various factors including unavailability or shortage of labour, shortage of raw materials and adverse

weather conditions, till the date of this Draft Red Herring Prospectus, we have not been subjected to liquidated damages.

However, there can be no assurance that we would not be subjected to any such monetary penalties in the future. Any such penalties may adversely impact our reputation, profitability, financial position, cash flows, results of operations and future prospectus.

33. *We face significant competition and if we fail to compete effectively, our business, prospects, financial condition and results of operations will be adversely affected.*

We operate in a competitive environment and our industry has been frequently subject to intense price competition for the acquisition and quoting of projects. The EPC sector is characterized by intense competition among the large existing players. We compete against major construction companies at the national and local levels and in multiple segments of construction business. While service quality, technological capacity and performance, health and safety records and personnel, as well as reputation and experience, are important considerations in clients' decisions, price is a major factor in most contract awards. We may thus be compelled to quote for new projects more aggressively than we expected and may accept terms and conditions that are not in our favour. If we fail to win new projects, we may not be able to increase, or maintain, our volume of business or revenues. Failure to compete effectively against our current or future competitors may have a material and adverse effect on our business, financial condition and results of operation.

Further, some of our competitors may be larger than us, have stronger financial resources or a more experienced management team, or have stronger engineering capabilities in executing technically complex projects. They may also benefit from greater economies of scale and operating efficiencies and may have greater experience in construction business. Further, the premium placed on having experience may cause some of the new entrants to accept lower margins in order to be awarded a contract. We may also decide not to participate in some projects as accepting lower margins may not be financially viable and this may adversely affect our competitiveness to quote for and win future contracts. We cannot assure you that we can continue to compete effectively with our competitors in the future, and failure to compete effectively against our current or future competitors may have an adverse effect on our business, results of operations and financial condition. Competition can place downward pressure on our contract prices and profit margins and may force us to accept contractual terms and conditions that are not normal or customary for us, thereby increasing the risk that we may have losses on such contracts. Intense competition is expected to continue in these markets, presenting us with significant challenges in our ability to maintain strong growth rates and acceptable profit margins. If we are unable to meet these competitive challenges, we could lose market share to our competitors and experience an overall reduction in our profits.

34. *Our success depends in large part upon our Promoter. If our Promoter is unable or unwilling to continue in our business, our Company's prospects and operations could be materially adversely affected.*

One of our Promoter, Vibhoar Agrawal, aged 38 years has an experience of above 8 years in the construction industry. He has been crucial to the growth of our business and we are highly dependent on our Promoter to manage our current operations and to meet future business challenges. In particular, the active involvement of our Promoter in our operations, including through strategy, direction, client and lender relationships have been integral to our development and business. In case of our Promoter are unable or unwilling to continue in our business, we cannot assure you that his services will continue to be available to us. The loss of our Promoter would have a material adverse effect on our business prospects and operations.

35. *Our Directors do not have experience of being a director of a public listed company.*

The Directors of the Company do not have the experience of having held directorship of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, the Company will

require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited quarterly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies.

Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

- 36. *Any litigations or proceedings which may arise in the future against our Company, Director, Promoter Group or Group Company may render us and/or them liable to liabilities or penalties and may adversely affect our business, results of operations and financial condition.***

While, there are no outstanding matters involving moral turpitude or criminal proceedings, statutory and regulatory actions and economic offences, tax proceedings involving our Company, Directors, Promoter Group or Group Company, we cannot assure you that no legal proceedings will arise in future which involve our Company, Directors, Promoter Group or Group Company. Such a proceeding, if arises, may adversely affect our business, financial condition and growth strategy.

- 37. *We have in past entered into related party transactions and we may continue to do so in the future***

As of March 31, 2024, we have entered into a few related party transactions, which are in compliance with the Companies Act, 2013 and other applicable laws, such as transaction involving Director's remuneration. In addition, we have also entered into transactions with other related parties in the past. We confirm that the transactions with Related Parties entered into by our Company in the preceding three years have been carried out at arms' length price and are not prejudicial to the interest of our Company.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. For further details, see "Summary of the Issue Document - Summary of Related Party Transactions" and "Restated Financial Information" on pages 22 and 157 of this Draft Red Herring Prospectus.

- 38. *We require certain approvals and licenses in the ordinary course of business. Any failure to successfully obtain/renew/update such registrations may adversely affect our operations, results of operations and financial condition***

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. Previously we were a partnership firm in the name of M/s Ganesh International after complying with the relevant provisions and procedures of Companies Act 2013, the firm was converted into private limited company followed by the name change of the company to "Ganesh Infraworld Private Limited". There are some of the approvals which are in the previous name, we are taking necessary steps for transferring the same in the new name of our company. Further, we are also in the process of making applications for change in name pursuant to conversion of our Company

from Private to Public. In case we fail to transfer or obtain the same in the name of our company same may adversely affect our business or we may not be able to carry our business. Any failure to apply for and obtain the required approvals, licences, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company.

We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavor to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see “*Government and Other Statutory Approvals*” on page 203 of this Draft Red Herring Prospectus.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

39. *Wage pressures and increases in operating costs in India may prevent us from sustaining our competitive advantage and may reduce our profit margins.*

Wage and operating expenses increase in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Wages in India are increasing at a faster rate than in the developed economies, which could result in increased employee benefit expenses. We may need to continue to increase the levels of our employee compensation to remain competitive and manage attrition. Further, The Code on Wages, 2019 received the assent of the President of India on August 8, 2019 and proposes to subsume four existing laws namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The provisions of this code will be brought into force on a date to be notified by the Central Government. This may impact our wage structure and may lead to increased wage payments to our employees. Additionally, the cost of operating expenses is also increasing as India continues to grow. Compensation increases manifest a hike in operational costs which may result in a material adverse effect on our business and financial condition and result of operations.

40. *Our operations are subject to environmental, health and safety laws and regulations*

Being in the infrastructure segment, we are required to comply with various laws and regulations relating to the environment, health and safety. Our project operations are subject to local environmental laws and regulations. There can be no assurance that compliance with such environmental laws and regulations will not result in a curtailment of operations, or a material increase in the costs of operations, or otherwise have a material adverse effect on the financial condition and results of our operations. For further details, please see “*Key Regulations and Policies*” on page 124 of this Draft Red Herring Prospectus. While as of the date of this Draft Red Herring Prospectus, we are not subject to any environmental legal proceedings, we may be impleaded in such legal proceedings in the course of our business. Such legal proceedings could divert management time and attention and consume financial resources in defense or prosecution of such legal proceedings or cause delays in the construction, development or commencement of operations of our projects. No assurance can be given that we will be successful in all, or any, of such proceedings.

41. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect business prospects, results of operations and financial condition.*

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. While we have not faced any such instances of material nature in the last three (3) financial years, it may not always be possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which may result in write-off of such amounts.

42. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own a majority of the Equity Shares of our Company. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AoA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

43. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company could be lower than the Floor Price of the Price Band as may be decided by the Company in consultation with the Book Running Lead Manager. The average cost of acquisition of Equity Shares acquired by our Promoters is set out below:

Promoters	Average cost of acquisition per Equity Share (in ₹)^{^*}
Vibhoar Agrawal	4.00
Rachita Agrawal	1.99

[^] As certified by M/s. Piyush Kothari & Associates, Chartered Accountants, pursuant to their certificate dated August 14, 2024

* Adjusted of sub-division of one equity shares of face value ₹ 10/- per share to two equity shares of face value of ₹ 5/- each and issue of bonus in ratio of 1:4.

For more details regarding weighted average cost of acquisition of Equity Shares by our Promoters and build-up of Equity Shares by our Promoters in our Company, see “*Capital Structure*” on page 69 of this Draft Red Herring Prospectus.

44. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

Our Company has no experience as a public listed company or with the increased scrutiny of its affairs by shareholders, regulators and the public at large that is associated with being a public listed company. As a public company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted public company. Our Company will also be subject to the provisions of the listing related compliances which require us to file unaudited financial results on a

quarterly basis. In order to meet our Company's financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

45. *If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.*

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis so that our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Any lapses in judgment or failures that result from human error can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of our Equity Shares.

Further, our operations are subject to anti-corruption laws and regulations. These laws generally prohibit us and our employees and intermediaries from bribing, being bribed or making other prohibited payments to government officials or other persons to obtain or retain business or gain some other business advantage. We participate in collaborations and relationships with third parties whose actions could potentially subject us to liability under these laws or other local anti-corruption laws. If we are not in compliance with applicable anti-corruption laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition and results of operations. Likewise, any investigation of any potential violations of anti-corruption laws by the relevant authorities could also have an adverse impact on our business and reputation.

46. *Our Company has during the preceding one year from the date of this Draft Red Herring Prospectus have allotted Equity Shares at a price which may be lower than the Issue Price.*

In the last 12 months, we have made allotments of Equity Shares through bonus issue of shares to the shareholders, which are given without any consideration to the shareholders. For details relating to number of shares issued, date of allotment etc. see "*Capital Structure*" on page 69 of this Draft Red Herring Prospectus. The Issue Price is not indicative of the price that will prevail in the open market following listing of the Equity Shares.

EXTERNAL RISK FACTORS

47. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks and other acts of violence may adversely affect the Indian stock

markets where our Equity Shares will trade as well as the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Share.

48. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

We are dependent on domestic, regional and global economic and market conditions, where some of our revenue from operations is generated. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic and regional economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

49. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares

50. *You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("**STT**") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any capital gain realized on the sale of listed equity shares on a Stock Exchange held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India.

Further, the Government of India has recently announced the Union Budget for the Financial Year 2025 and further notified the Finance Bill, 2024. Pursuant to the Budget, the Finance Bill, 2024, inter alia,

proposes to amend the capital gains tax rates with effect from the date of announcement of the Budget. However, the Finance Bill, 2024 has not yet been enacted into law. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals

ISSUE RELATED RISKS

- 51. *The ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.***

The amount of future dividend payments, if any, will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors. The ability to pay dividends may also be restricted under certain financing arrangements that the company has and may enter into. There can be no assurance the company shall have distributable funds in the future.

- 52. *After this Issue, the price of the Equity Shares may be volatile, or an active trading market for the Equity Shares may not develop.***

Prior to this Issue, there has been no public market for the Equity Shares. The trading price of the Equity Shares may fluctuate after this Issue due to a variety of factors, including the results of operations and the performance of our business, competitive conditions, general economic, political and social factors, volatility in the Indian and global securities markets, the performance of the Indian economy and significant developments in India's financial year regime. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue, or that the price at which the Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue.

- 53. *Future issuances or sales of the equity shares could significantly affect the trading price of the Equity Shares and the grant of stock options under our employee stock option schemes may result in a charge to our profit and loss account and adversely impact our results of operations.***

Any future issuance of equity shares by us, the disposal of our equity shares by any of our major shareholders or our issuance of stock options under our existing or future employee stock options schemes (ESOPs) could dilute your shareholding, adversely affect the trading price of our Equity Shares or impact our ability to raise capital through another offering of securities. In addition, any perception by investors that such issuance or sales of equity shares by our major shareholders may occur may significantly affect the trading price of our Equity Shares.

- 54. *There are restrictions on daily movements in the price of Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Subsequent to listing, we will be subject to a daily circuit breaker imposed on listed companies by all Stock Exchange in India which does not allow transactions beyond certain volatility in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on the Indian stock exchanges. The percentage limit on our circuit breaker is set by the Stock Exchange based on the historical volatility in the price and trading volume of the Equity Shares. The Indian stock exchanges are not required to inform us of the percentage limit of the circuit breaker from time to time, and may change it without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the price of Equity Shares. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

- 55. *There is no guarantee that the Equity Shares will be listed on NSE in a timely manner or at all, and any trading closures at NSE may adversely affect the trading price of our Equity Shares.***

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after those Equity Shares have been issued and allotted. Approval for listing and trading requires all other relevant documents authorizing the issuing of the Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares.

56. *A third party could be prevented from acquiring control of us because of the anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the takeover regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that the interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Indian takeover regulations.

57. *You will not be able to sell immediately on an Indian stock exchange any of the Equity Shares you purchase in the Issue.*

The Equity Shares will be listed on the EMERGE Platform of the National Stock Exchange of India ("**NSE EMERGE**"). Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Investors' book entry, or demat accounts with depository participants in India are expected to be credited within two Working Days of the date on which the basis of allotment is approved by Designated Stock Exchange. Thereafter, upon receipt of final approval from the Designated Stock Exchange, trading in the Equity Shares is expected to commence within three Working Days from the date of closing of the Issue. We cannot assure you that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence within the time periods specified above.

58. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on the stock exchange where such Equity Shares are proposed to be listed including Allotment pursuant to the Issue within three Working Days from the Bid/Issue Closing Date or within such time as may be prescribed, events affecting the bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

59. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.*

The Issue Price may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. There can be no assurances that investors who are allotted Equity Shares through the Issue will be able to resell their Equity Shares at or above the Issue Price.

60. ***Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency, can be obtained on any particular terms or at all.

61. ***Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

62. ***Our assets and operations are located in India, and we are subject to regulatory, economic and political uncertainties in India and a significant change in the central and state governments' economic liberalization and deregulation policies could disrupt our business.***

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI, or any other government agency, can be obtained on any particular terms or at all.

63. ***Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.***

Our Articles of Association and applicable law govern our corporate affairs. Legal principles related to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company incorporated under the laws of another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Consequently, investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation incorporated under the laws of another jurisdiction.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 230 of this Draft Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;

- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

Indian Economic Outlook

The Indian economy exhibited resilience during 2023-24, notwithstanding persistent headwinds from subdued external demand, protracted geopolitical tensions and volatile global financial markets. Real GDP growth was sustained at 7 per cent and above for the third successive year in 2023-24, supported by robust growth in fixed investment on the back of the government’s focus on capital expenditure. On the supply side, economic activity was lifted by the boost to the manufacturing sector’s profitability from the correction in input prices and sustained momentum in services activity, even as the agricultural sector activity exhibited a slowdown.

Real GDP rose by 7.6 per cent in 2023-24 as compared with 7.0 per cent growth in 2022-23, according to the second advance estimates (SAE) of the National Statistical Office (NSO). This acceleration was powered by solid expansion in investment demand, which more than offset the slowdown in private consumption demand and the drag from external demand. Real GDP growth was robust at 8.2 per cent during 2023-24 (April-December). The acceleration in momentum in Q2 sustained in Q3:2023-24.

Indian Infrastructure

India’s high growth imperative in 2023 and beyond will significantly be driven by major strides in key sectors with infrastructure development being a critical force aiding the progress.

Infrastructure is a key enabler in helping India become a US \$26 trillion economy. Investments in building and upgrading physical infrastructure, especially in synergy with the ease of doing business initiatives, remain pivotal to increase efficiency and costs. Prime Minister Mr. Narendra Modi also recently reiterated that infrastructure is a crucial pillar to ensure good governance across sectors.

The government's focus on building infrastructure of the future has been evident given the slew of initiatives launched recently. The US\$ 1.3 trillion national master plan for infrastructure, Gati Shakti, has been a forerunner to bring about systemic and effective reforms in the sector, and has already shown a significant headway.

Infrastructure support to the nation's manufacturers also remains one of the top agendas as it will significantly transform goods and exports movement making freight delivery effective and economical.

The "Smart Cities Mission" and "Housing for All" programmes have benefited from these initiatives. Saudi Arabia seeks to spend up to US\$ 100 billion in India in energy, petrochemicals, refinery, infrastructure, agriculture, minerals, and mining.

The infrastructure sector is a key driver of the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from the Government for initiating policies that would ensure the time-bound creation of world-class infrastructure in the country. The infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure, and construction development projects.

To meet India's aim of reaching a US\$ 5 trillion economy by 2025, infrastructure development is the need of the hour. The government has launched the National Infrastructure Pipeline (NIP) combined with other initiatives such as 'Make in India' and the production-linked incentives (PLI) scheme to augment the growth of the infrastructure sector. Historically, more than 80% of the country's infrastructure spending has gone toward funding for transportation, electricity, and water, and irrigation.

While these sectors still remain the key focus, the government has also started to focus on other sectors as India's environment and demographics are evolving. There is a compelling need for enhanced and improved delivery across the whole infrastructure spectrum, from housing provision to water and sanitation services to digital and transportation demands, which will assure economic growth, increase quality of life, and boost sectoral competitiveness.

Warehousing Infrastructure

A warehouse is an essential component of corporate infrastructure and one of the primary enablers in the global supply chain. The Indian warehousing market is predicted to reach US\$ 34.99 billion (Rs. 2,872.10 billion), expanding at a CAGR of 15.64% from 2022 to 2027. Modern warehouse facilities and technology-driven solutions have changed the warehousing sector in India in recent years. With increased demand and supply throughout the years, the Indian warehousing industry is gaining traction. The key players are third-party logistics (third-party logistics) and e-commerce enterprises, which are growing into tier 2 and 3 cities and eventually increasing their proportion of secondary marketplaces. Businesses are transitioning to a hub-and-spoke model while also implementing technology to simplify operations, with an eye on the larger picture of ease, efficiency, and sustainability.

Grade A warehouses are modernized buildings created specifically to meet the needs of warehouse logistics. They feature the most up-to-date technology, superior building materials, a prime location, and a convenient traffic interchange. Grade B objects are outdated buildings that must be rebuilt to satisfy modern warehouse logistics standards.

As depicted in the below chart, India saw a 21% year-over-year increase in the total stock of Grade A and B warehouse space in the top eight cities in 2021. The total warehousing capacity is expected to be 287 million square feet by the end of 2021, up from 238 million square feet the previous year. Grade A stock in India was 134 million square feet, representing a 5-year CAGR of 29.9%. Among the eight major cities, the three largest cities in the country, including Delhi NCR, Mumbai, and Bengaluru, contribute more than half of the warehousing stock.

Jal Jeevan Mission

Jal Jeevan Mission is envisioned to provide safe and adequate drinking water through individual household tap connections by 2024 to all households in rural India. The program will also implement source sustainability measures as mandatory elements, such as recharge and reuse through grey water management, water conservation, rainwater harvesting.

As announced by the Prime Minister, Shri Narendra Modi on 15 August, 2019, the goal of the mission is to provide every rural household with a functional tap water connection by 2024.

JJM will benefit 19 Crore rural households, ensuring more than 90 Crore rural people will be directly benefited by the mission, thereby reducing the rural urban divide with respect to basic amenities.

JJM will especially benefit women by eliminating the age-old drudgery. It will also prove to be a game changer with respect to rural public health, especially for the children as potable drinking water in their homes and schools, anganwadi centres, etc. will greatly reduce the chance of falling sick due to water-borne diseases.

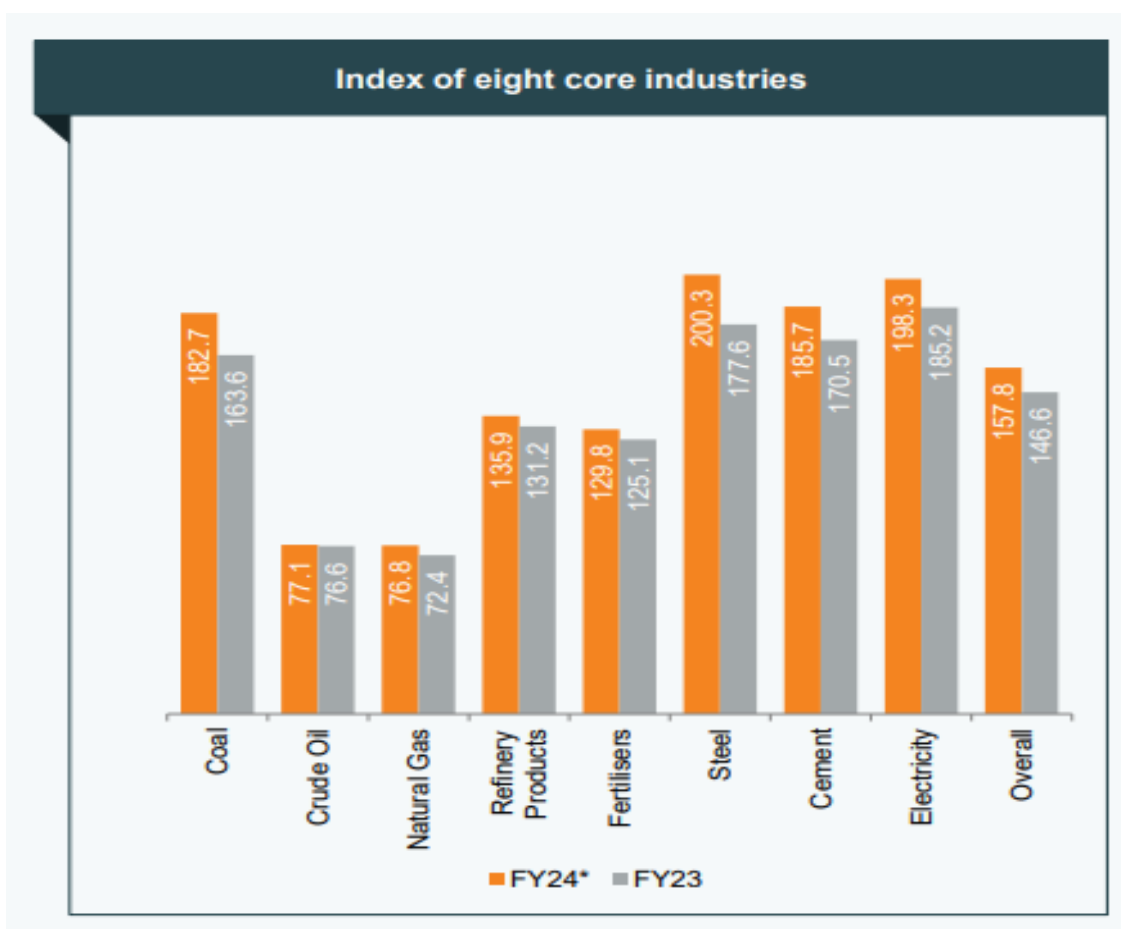

The mission has shifted the focus of water supply 'from villages/ habitations to households' with provision of tap water supply to every rural household so that every family gets potable water in adequate quantity and of prescribed quality on regular and long-term basis.

As announced by the Prime Minister, there is no dearth of funds for the implementation of the mission: A phenomenal outlay of Rs. 3.60 lakh Crore has been earmarked for JJM till 2024. With this huge amount of fund to be used in rural India, along with continuous need for skilled manpower (mason, plumber, electrician, pump operator, fier, etc.) and also increased demand for material/ products, it is expected to create employment generation opportunities and thereby giving a never-before boost to the rural economy. (Source JJM Booklet published by Department of Drinking Water & Sanitation Ministry of Jal Shakti, GOI on 31 December 2021)

In 2023, the mission crossed several milestones and progressed from 11 crore connection at the start of the year to nearly 14 crore tap connections by the end of the year. In 2023-24, so far, the Government of India has released Rs. 45,841.39 Crore to 26 eligible States for the implementation of Jal Jeevan Mission in the financial year 2023-24.

Through a comprehensive approach, JJM has become a catalyst for positive change in the lives of millions across India's rural landscape. The Mission extends its impact to health and hygiene. The World Health Organization released a groundbreaking report in June 2023 highlighting the substantial benefits of the 'Har Ghar Jal' program in India. The report estimates that ensuring safely managed drinking water for all households in the country could avert nearly 400,000 deaths caused by diarrheal diseases and prevent approximately 14 million Disability Adjusted Life Years (DALYs) related to these diseases. This achievement alone would result in estimated cost savings of up to \$101 billion. The analysis focuses on diarrheal diseases as it accounts for majority of WASH-attributable disease burden. The study brought out the fact that Government of India's investment in Jal Jeevan Mission has a significant multiplier effect on health. (Source : Press Release dated 5/6/24)

KEY REGULATIONS AND POLICIES

The following description is a summary of certain key regulations in India which are applicable to the business and operations of our Company. The information detailed in this section has been obtained from publications available in public domain. The description of laws and regulations set forth below may not be exhaustive and is only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. A. Key Regulations governing our Business

National Highways Act, 1956

The Central Government is responsible for the development and maintenance of 'National Highways' and may delegate any function relating to development of 'National Highways' to the relevant state government in whose jurisdiction the 'National Highway' falls, or to any officer or authority subordinate to the central or the concerned state government. The Central Government may also enter into an agreement with any person (being, either an individual, a partnership firm, a company, a joint venture, a consortium or any other form of legal entity, Indian or foreign, capable of financing from own resources or funds raised from financial institutions, banks or open market) in relation to the development and maintenance of the whole or any part of a 'National Highway'. Such an agreement may provide for designing and building a project and operating and maintaining it, collecting fees from users during an agreed period, which period together with construction period is usually referred to as the 'concession period'. Upon expiry of the 'concession period', the right of the person to collect fees and his obligation to operate and maintain the project ceases and the facility stands transferred to the central government. Under the National Highways Act, 1956 (the "NH Act"), the Central Government is vested with the power to declare a highway as a national highway and also to acquire land for this purpose. The Central Government may, by notification, declare its intention to acquire any land when it is satisfied that for a public purpose such land is required to be acquired for the building, maintenance, management or operation of a national highway or part thereof. The NH Act prescribes the procedure for such land acquisition which inter alia includes entering and inspecting such land, hearing of objections, declaration of acquisition and the mode of taking possession. The NH Act also provides for payment of compensation to owners and any other person whose right of enjoyment in that land has been affected.

National Highways Development Project

The Government of India, under the Central Road Fund Act, 2000 created a dedicated fund for NHDP (the "Fund"). Certain sources for financing of NHDP are through securitization of cess as well as involving the private sector and encouraging Public Private Partnership (PPP). The NHDP is also being financed through long-term external loans from the World Bank, the ADB and the JBIC as well as through tolling of roads. Private Participation in NHDP In an effort to attract private sector participation in the NHDP, the NHAI has formulated model concession agreements where a private entity (the "Concessionaire") is awarded a concession to build, operate and collect toll on a road for a specified period of time, which is usually up to 30 years. The bidding for the projects takes place in two stages as per the process provided below: • in the pre-qualification stage, NHAI selects certain bidders on the basis of technical and financial expertise, prior experience in implementing similar projects and previous track record; and • in the second stage, NHAI invites commercial bids from the pre-qualified bidders on the basis of which the right to develop the project is awarded. In a BOT project, the Concessionaire meets the up-front cost and expenditure on annual maintenance and recovers the entire cost along with the interest from toll collections during the concession period. To increase the viability of the projects, a capital grant is provided by the NHAI / GoI on a case to case basis. The Concessionaire at the end of the concession period transfers the road back to the Government. The Concessionaire's investment in the

road is recovered directly through user fees by way of tolls. In annuity projects, the private entity is required to meet the entire upfront cost (no grant is paid by NHAI / GoI) and the expenditure on annual maintenance. The Concessionaire recovers the entire investment and predetermined return on investments through annuity payments by NHAI / GoI. In hybrid annuity projects, 40% of the total project cost is to be funded by the government and the remaining by the Concessionaire. The NHAI also forms SPVs for funding road projects. This method of private participation involves very little cash support from the NHAI in the form of equity / debt. Most of the funds come from ports/financial institutions/beneficiary organisations in the form of equity / debt. The amount spent on developments of roads/highways is to be recovered in the prescribed concession period by way of collection of toll fee by the SPV. Tax incentives which are being provided to the private entity are eligible for 100% exemption for any consecutive 10 years out of the first 20 years after completion of a project. The Government has also allowed duty free import of specified modern high-capacity equipment for highway construction.

National Highways Fee (Determination of Rates and Collection) Rules, 2008

The National Highways Fee (Determination of Rates and Collection) Rules, 2008 (the “NH Fee Rules”) regulate the collection of fee for the use of a national highway. Pursuant to the NH Fee Rules, Central Government may, by a notification, levy fee for use of any section of a national highway, permanent bridge, bypass or tunnel forming part of a national highway, as the case may be. However, the Central Government may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of fees. The NH Fee Rules do not apply to the concession agreements executed or bids invited prior to the publication of such rules i.e., December 5, 2008. The collection of fee in case of a public funded project shall commence within 45 days from the date of completion of the project. In case of a private investment project, the collection of such fee shall be made in accordance with the terms of the agreement entered into by the concessionaire. The NH Fee Rules further provide for the base rate of fees applicable for the use of a section of the national highway, permanent bridge, bypass or tunnel, as the case may be, for different categories of vehicles.

Other legislations relevant to the road sector

In addition to the above, there are also certain other legislations that are relevant to the road sector which include the Road Transport Corporation Act, 1950, National Highways Rules, 1957, National Highways (Temporary Bridges) Rules, 1964, National Highways (Fees for the Use of National Highways Section and Permanent Bridge Public Funded Project) Rules, 1997, National Highways (Rate of Fee) Rules, 1997, National Highways Tribunal (Procedure) Rules, 2003, Central Road and Infrastructure Act, 2000, Central Road Fund (State Roads) Rules 2007 and Green Highways (Plantation, Transplantation, Beautification & Maintenance) Policy, 2015.

B. Environmental Laws

The Environment (Protection) Act, 1986 (“EPA”)

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emit any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution.

The Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act aims to prevent and control water pollution by factories and manufacturing units and to maintain and restore the quality and wholesomeness of water. Under the Water Act, any person

establishing any industry, operation or process, any treatment or disposal system, using of any new or altered outlet for the discharge of sewage or causing new discharge of sewage, must obtain the consent of the relevant state pollution control board, which is empowered to establish standards and conditions that are required to be complied with.

The Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

GANESH INFRAWORLD LIMITED
CIN– U46620WB2024PLC268366
(Formerly Known As Ganesh Infraworld Private Ltd. and Ganesh International)

1. i) Background of the Company

Ganesh Infraworld Limited (formerly known as Ganesh Infraworld Private Ltd. and Ganesh International) is domiciled and incorporated in India on February 13, 2024, under the Companies Act, 2013. Ganesh Infraworld Limited (“the Company”) was originally formed as a partnership firm under the Indian Partnership Act, 1932 (“Partnership Act”), pursuant to the Deed of Partnership dated May 15, 2017, by Rachita Agrawal and Vibhoar Agrawal, in the name and style of “M/s. Ganesh International was thereafter converted from a Partnership Firm to a Private Limited company under Part I Chapter XXI of the Companies Act, 2013, with the name and style of “Ganesh Infraworld Private Limited” and received a Certificate of Incorporation from the Registrar of Companies, Central Registration Centre dated February 13, 2024. Subsequently, the Company was converted into a Public Limited Company and the name of the company was changed from “Ganesh Infraworld Private Limited” to “Ganesh Infraworld Limited” vide a fresh certificate of incorporation dated June 01, 2024. The Company is engaged in the business of providing engineering, procurement, and construction (“EPC”) services in infrastructure projects such as the construction of plants & warehouses, industrial civil projects, mechanical projects, buildings & factories, road construction, residential buildings, the balance of plant and components for power projects and water treatment projects.

ii) Basis of preparation of Financial Statements

The restated financial statements of the Company have been compiled by the management from the audited financial statements for the period/year ended March 31, 2024, February 12, 2024, March 31, 2023 and March 31, 2022. The restated financial statements have been prepared to comply in all material aspects with the provisions of Part I of Chapter III of the Companies Act, 2013 (“Act”) read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (“ICDR Regulations”) issued by SEBI and Guidance Note on Reports in Companies Prospectuses (Revised 2019) (“Guidance Note”). The restated financial statements have been specifically for inclusion in the offer document to be filed by the Company with the stock exchange(s) in connection with its proposed IPO. The Company’s management has recast the financial statements in form required by Schedule III of the Companies Act, 2013 for the purpose of restated summary statements.

The financial statements have been prepared under the historical cost convention and evaluated on a going concern basis using the accrual system of accounting in accordance with the generally accepted accounting principles in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

All assets and liabilities have been classified as current and non-current as per normal operating cycle of the Company and other criteria set out in the Schedule III of the Companies Act, 2013. The financial statements are presented in INR and all values are in lakhs

2. Significant Accounting Policies:

Summary of Significant Accounting Policies:

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting year end. Although these estimates are based upon the management’s best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amount of assets and liabilities in future periods.

a) Revenue Recognition

The Company recognises revenue from contracts with customers when it satisfies a performance obligation by transferring promised good or service to a customer. The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Performance obligation is satisfied over time when the transfer of control of asset (good or service) to a customer is done over time and in other cases, performance obligation is satisfied at a point in time. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring good or service to a customer excluding amounts collected on behalf of a third party.

Significant judgments are used in:

1. Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.
2. Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date.

- b)** Services charges income has been recognized as and when the services are rendered to the customers and when there is a reasonable certainty of its ultimate realisation/collection.

ii) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use and initial estimate of decommissioning, restoring and similar liabilities, if any. Any trade discount and rebates are deducted in arriving at the purchase price.

Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Gains or losses arising from de-recognition of Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is de-recognised.

The company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

iii) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

iv) Depreciation on Property, Plant and Equipment and Amortization on intangible assets

- a) Depreciation on Property, Plant and Equipment is calculated on Straight Line Method at the rates and in the manner prescribed in the "Schedule II" of the Companies Act, 2013
- b) Depreciation on Property, Plant and Equipment added/disposed off during the year is provided on pro-rata basis with reference to the date of addition/disposal.

v) Inventories

Materials, components and stores & spares to be used in contracts are valued at lower of cost, or net realizable value. Cost is determined on weighted average basis. Net Realizable Value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated cost necessary to make the sale. Unbilled Revenue (WIP) is valued at net realizable value. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

vi) Investments

Investments that are readily realizable and are intended to be held for not more than one year from the balance sheet date are classified as current investments and are stated at lower of cost and fair market value. All other investments are classified as long term investments.

vii) Taxes on Income

Tax expense comprises of current tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in the guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

viii) Retirement and other employees benefits

- a) Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.
- b) Gratuity liability being a defined benefit obligation is provided for on the basis of actuarial valuation on projected unit credit method at the end of each financial year. Actuarial gains / losses are recognized in full in the period in which they occur in the Statement of Profit and Loss and as on the date no employee is eligible for gratuity.
- c) Short term compensated absences are provided for based on estimates. Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

ix) Cash and Cash Equivalents

Cash and cash equivalents in the cash flow statement comprise of cash at bank and Cash / Cheque on hand and short-term investments made in fixed deposits of three months or less.

x) Earnings Per Share

Basic Earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

xi) Borrowing costs

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

xii) Provisions

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past event and it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation, at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

xiii) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize contingent liability.

xiv) Segment Reporting

The Company is engaged mainly in the business of construction activities. However, there are no reportable segment other than Construction as none of them meet the quantitative threshold criteria as prescribed. The Group is primarily operating in India which is considered as single geographical segment.

OVERVIEW OF OUR BUSINESS

We are a construction company offering a range of construction and allied services across industrial civil projects, mechanical projects, residential & commercial buildings, road construction, railway infrastructure projects, power projects and water distribution projects in India. We specialize in integrated engineering, procurement, and construction (“EPC”) services and provide our services across the construction value chain, ranging from planning, design, construction including mechanical, electrical, civil and industrial and allied services. We conduct our business operations primarily through three verticals, namely, (i) civil and electrical infrastructure projects; (ii) road and rail infrastructure development projects; and (iii) water infrastructure development projects, as a single operating segment of engineering and construction.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our financial condition and results of operations are affected by numerous factors and uncertainties, including

those discussed in the section entitled “*Risk Factors*” on page 25 of this Draft Red Herring Prospectus. The following are certain factors that have had, and we expect will continue to have, a significant effect on our financial condition and results of operations:

Order Book and new orders and timing and terms of contract awarded

Our Order Book and the new orders that we receive have a significant effect on our future revenue. Our Order Book as of any particular date consists of value of our outstanding orders, that is, the total contract value of the existing contracts secured by us as reduced by the value of work executed (excluding cost escalation) and billed until the date of such Order Book. The value of the orders we receive has an impact on our future performance. We accept orders based on a number of factors such as the profit margin we expect to achieve after considering various factors including costs involved and execution timelines. Therefore, any cancellation of orders or premature foreclosure or termination of projects under construction by our customers may result in a reduction of our future revenue.

Project portfolio/ geographical distribution of projects

Our current portfolio predominantly comprises of projects located in the state of West Bengal, Jharkhand and Uttar Pradesh. Our ability to bid for and secure new projects in these major cities and expand our presence to cover other geographies will determine further growth in order booking and revenues. While we have expanded our operations outside West Bengal, and our geographical footprint continues to grow, our project portfolio continues to be concentrated in West Bengal. While majority of our clients are of private sector as of now, we intend to bid for contracts in the public sector. We believe that our ability to bid for and undertake EPC projects for select public sector clients in and around our current area of operations will determine further growth in our Order Book and revenues. Further, we intend to increase the number of projects to be executed on a design-build basis, wherein our scope of work includes services in relation to designing elements of the project in addition to our construction and finishing services which we believe is margin accretive.

Cost Management

Our project costs mainly comprise of construction expense and other direct expenses. Our construction and other direct expenses constituted 89.15%, 89.82% and 91.62% of the total income respectively for the financial years 2024, 2023 and 2022. The key raw materials required for our business are sand and ready-mix concrete which form a predominant part of the material cost and these items are generally covered under the price adjustment mechanism in our contracts, except those on design –build basis. Even though we factor in cost escalations for other construction expenses in our contract values, there may be unanticipated increase in input costs in excess of our estimates thereby adversely impacting our profitability. Material wastage and costs of procurement of materials not covered by price adjustment mechanism are important factors that affect the cost of construction and our project budget. Our ability to restrict the material wastages, optimize the employee costs and the labour costs directly impact our profitability

Access to capital and cost of financing

Our business is working capital intensive. In many cases, significant amounts of working capital are required to finance the purchase of materials, the performance of engineering, construction and other work on projects before payments are received from clients. We have typically financed our capital requirements through bank borrowings, issuance of securities, client advances and internal accruals. Access to adequate capital from bank borrowings is on such terms and conditions which are mutually acceptable to our Company and the lender. Further, our Company has been purchasing immovable assets in order to provide for and maintain sufficient collateral for such bank borrowings.

Seasonality and weather conditions

Our business operations may be adversely affected by severe weather conditions, which may require us to evacuate personnel or curtail services, may result in damage to a portion of our fleet of equipment or facilities resulting in the suspension of operations, and may prevent us from delivering materials to our project sites or prevent us from

executing the works in accordance with contract schedules or generally reduce our productivity. Our operations are also adversely affected by difficult working conditions during the monsoon season. During the monsoons, the heavy rains particularly impact the construction works upto ground level and heavy winds impact the works particularly at heights. These weather conditions may restrict our ability to carry on construction activities and fully utilize our resources. During periods of curtailed activity due to adverse weather conditions, we may continue to incur overhead and financing expenses and other fixed costs, but our revenues from operations may be delayed or reduced. Revenues recorded in the second quarter of our financial year between July to September are traditionally less compared to revenues recorded during the rest of our financial year. As a result, our revenues and profits may vary significantly during different financial periods, and certain periods are not indicative of our financial position for the year.

Competition

The construction industry is extremely competitive where the key factors of competition primarily comprise of quality, cost and time taken for completion of the project. The level and intensity of competition varies depending on the scope, scale and complexity of the project and on the geographical region where the project is executed.

Our net worth and track record help us qualify to bid for a large number of the projects. The selection process in the private sector typically involves technical qualification followed by evaluation of pricing, which is generally subject to negotiations subsequently by the client with the shortlisted bidders. We, therefore, may not get a project solely on the basis of pricing of our proposal and this is generally consequent upon negotiations with the clients. Our competition includes entities that have been in the industry for decades, are well known in the market and may enjoy working relationships with our potential customers. Smaller and local entities may compete at a lower price due to difference in the value proposition.

General economic and business conditions and level of investment and activity in the construction sector

As a company operating in India, we are affected by the general economic conditions in India and, in particular, the factors affecting the construction industry and consequently, the building projects we undertake. For example, developments such as the enactment of the RERD Act, push for infrastructure development by Government of India, increased capital expenditure by private sector and increase in liquidity on macro-economic has caused a favourable impact on construction industry. We expect sustained positive impact on medium to long term.

Project implementation risks and other risks uncertainties

The construction or development of our projects involves various implementation risks including construction delays, delay or disruption in supply of raw materials, unanticipated cost increases, force majeure events, cost overruns or disputes with our counterparties. Increases in the prices of construction materials, fuel, labour and equipment, their availability and cost overruns could have an adverse effect on us. Further the timely availability of working capital is crucial and if we are not able to arrange for funds, we may be unable to source the requisite raw materials in a timely manner or at all and we may not receive bulk discounts on our purchases. The cost of construction materials, fuel, labour and equipment constitutes a significant part of our operating expenses. Our construction operations require various bulk construction materials including steel, cement, sand, and aggregate. At certain times, there can be a scarcity of raw materials, which may cause substantial increases in the prices of such raw materials. Further, few of our contracts are on the basis of a fixed price or a lump sum for the project as a whole, which may not always include escalation clauses covering any increased costs we may incur. We may suffer significant cost overruns or even losses in these projects due to any unanticipated cost increases. If any of these risks materialize, they could adversely affect our profitability, which may in turn have an adverse effect on our overall results of operation.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase is applicable from January 1, 2019, and will continue up to June 30, 2019. Under this phase, a Retail Individual Investor would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing would continue to be six Working Days.

Phase II: This phase commenced on completion of Phase I, i.e., with effect from July 1, 2019, and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular No. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount will be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is notified pursuant to SEBI press release bearing number 12/2023 and as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, where the revised timeline of T+3 days shall be made applicable in two phases i.e. (i) voluntary for all public issues opening on or after September 01, 2023; and (ii) mandatory on or after December 01, 2023. The Issue will be made under UPI Phase III of the UPI Circulars.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law. Accordingly, the Issue has been undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI pursuant to the T+3 Notification. The Issue has been advertised in all editions of [●] (a widely circulated English national daily newspaper), all editions of [●] (a widely circulated Hindi national daily newspaper) and [●] edition of [●] (a widely circulated [●] national daily newspaper, [●] also being the regional language of Kolkata, where our Registered Office is located), on or prior to the Bid/Issue Opening Date and such advertisement has also been made available to the Stock Exchange for the purpose of uploading on their websites.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed [●] as the Sponsor Bank to act as a conduit between the Stock Exchange and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Investors into the UPI mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful applicants to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the Book Running Lead Manager will be required to compensate the concerned investor.

SEBI through its circular SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 05, 2022, has prescribed. that all individual investors applying in initial public offerings opening on or after May 01, 2022, where the application amount is up to ₹ 5,00,000, shall use UPI. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and the Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991, prescribed the limits and the conditions subject to which foreign investment may be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”). The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment, where applicable. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, GoI, earlier known as Department of Industrial Policy and Promotion (“DPIIT”) has issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by DPIIT that were in force and effect as on October 15, 2020.

Pursuant to Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020, which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India. Further, in the event of a transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Each Applicant must seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant must intimate our Company and the Registrar to the Issue in writing about such approval, along with a copy thereof within the Issue Period.

Transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Circular and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Circular; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares issued in the Issue have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or any other applicable law of the United States and, unless so registered, may not be issued or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and the applicable state securities laws. Accordingly, the Equity Shares are being issued and sold (i) within the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act) under Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in offshore transactions as defined in and in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. There will be no public offering of Equity Shares in the United States.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares they apply for in the Issue does not exceed the applicable limits under applicable laws or regulations.
